

New Website – <http://www.medispa-resources.com> - Makes Its Debut!

Novato, California – July 28, 2008 – Medispa-Resources Inc. announces the launch of its new website, <http://www.medispa-resources.com>. This site was created to be *the* one-stop resource for the medispa industry. The site features links to schools, organizations, equipment, consultants and products that someone starting a medispa or already in the business may want to find without searching through several different websites. It also contains important forms and information such as articles and consent forms for medispa, laser and beauty procedures.

In the next few weeks, the site will add a Classifieds section (including job openings, candidates' resumes, and items, businesses or services for sale). Medispa-Resources will soon begin hosting a variety of Webinars of general interest to the industry.

For additional information about the website or to be listed on the site, contact Sue Redenbaugh, or visit www.medispa-resources.com.
